Overview

Overview

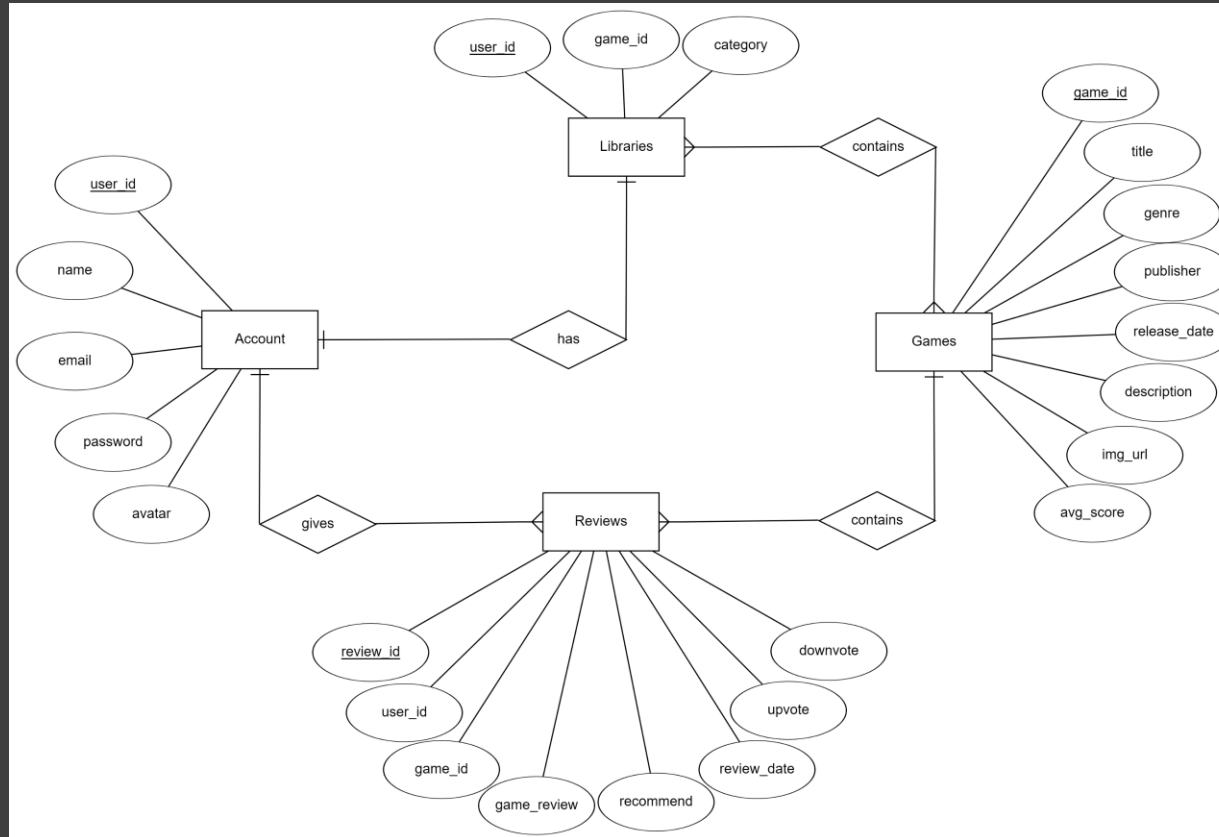

- Beside movies, video game is also a popular form of entertainment. With a wide variety of games currently on the market, it is not easy to find an enjoyable and quality game to play. Therefore, we want to use this Database project to create an Internet Games Database (IGDb) – a 2nd version of Steam – but focus on simplicity, convenience and user friendliness.

Overview

- Our group objective is to create a functional game database website, with basic functions such as finding games based on categories, leaving reviews and ratings for games, and adding games to your library.

Database design

when (NEW.review_id is not null)
```

```
execute procedure igdb.tg_af_insert_review();
```

View

```
CREATE VIEW igdb.game_view_store AS
  SELECT g.*,
    (SELECT COUNT(*) FROM igdb.library l WHERE l.game_id = g.game_id)
    as total_added FROM igdb.games g;
```

Features

Features

- User:
 - Login/logout/register
 - Browse games
 - Filter results
 - Games: None – Newest – Most popular – Highest rated
 - Library: None – Playing – Completed – Plan to play - Dropped
 - Search for games by title or genre
 - Add game to library
 - Give review/ratings to games
 - Upvote / Downvote a review
 - Set status to games on library (Playing – Completed – Plan to play - Dropped)
 - View user's status
 - Ranked by number of upvotes – downvotes for reviews

Add game to
library

SUPER MARIO ODYSSEY

Use amazing new abilities—like the power to capture and control objects, animals, and enemies—to collect Power Moons so you can power up the Odyssey airship and save Princess Peach from Bowser's wedding plans!

Average Score:	0.0
Recommendations:	0 / 0
Release date:	2017-10-27
Publisher:	Nintendo
Genre:	Platformer

To-do

To-do

- User:
 - User can browse site without logging in
 - User can edit/delete reviews
- Admin:
 - Will have a dedicated page for admin to control the site:
 - Add / edit / remove games
 - Ban users

The end

Thanks for listening
